THE HOUSE IN SESSION.

**THE BILL MAKING KAILUA A
PORT OF ENTRY PASSED.**

After a Twenty-Minute Session an
Adjournment is Taken Until
Monday Morning.

NINTH DAY, FEBRUARY 29TH

HOUSE OF REPRESENTATIVES.

Speaker Naone called the House to order at 10 o'clock this morning, and the usual preliminaries were had.

Rep. Richards from the Printing Committee reported back House Bill No. 2 as printed and ready for final passage.

Representative Hanuna gave notice of his intention to introduce a bill amending Sections 384 and 385 of the Civil Code, relating to sea fisheries.

On the order of the day, House Bill No. 2, creating a port of entry at Kailua, was taken up, read the third time and passed unanimously.

At 10:20 a. m. the House adjourned to Monday morning.

NOTES OF BOTH HOUSES.

After the session of the House this morning an informal discussion arose over the Great Seal. It seemed to be the opinion of members that Viggo Jacobsen's design should be accepted with modifications.

Representatives Robertson, Winston, McBryde and Haia were absent from this morning's session. Clerk of the House Keola was engaged after the morning session in making out drafts for \$25 each for such of the members as needed cash.

Workmen were employed this morning in erecting a screen around the rear portion of the Senate Chamber, shutting the latter off from the government offices.

ALEXANDER YOUNG RETIRES.

C. Hedemann Appointed Manager of the Iron Works.

The resignation of Alexander Young as manager of the Honolulu Iron Works was accepted at the recent meeting of the Board of Directors and assistant-manager C. Hedemann has been deservingly promoted to the vacancy thereby created.

The following letter shows the appreciation of Mr. Young's services entertained by the company and the high esteem in which he is regarded by its officers:

HONOLULU, Feb. 29, 1896.

ALEXANDER YOUNG, Esq.,
DEAR SIR: At the annual meeting of the shareholders of the Honolulu Iron Works Company, held on the 25th inst., I was requested, by unanimous resolution, to convey to you an expression of the deep regret with which we accept your resignation of the responsible position which you have held for so many years as manager of the company.

From the incorporation of the company until this day, you have been so completely identified with its progress that it is difficult to think or speak of one without thinking of the other, and the gratifying position which the company has attained in this country is very largely due to the ability, energy and conscientiousness with which you have discharged your important trust.

It is most gratifying to us to know that as the time approaches when men have a right to claim a respite from the strain of continuous toil, whether of mind or body, you have secured such a condition of prosperity as more than justifies your retirement from the daily round which has

been your life work. We very earnestly express our hope that you may be spared to many years of prosperity, happiness and usefulness to your family, and to the country where your lot is cast.

We are unwilling to sever, any further than may be absolutely necessary, your official connections with ourselves, and therefore we request you to accept the honorary post of consulting engineer to the company, and to consider that you will be as welcome as you have ever been to your place in the office of the company, where a desk will always be at your service.

Personally the history of the Honolulu Iron Works Company is the history of the friendship between you and myself, which has never been broken in all these years; it is therefore especially gratifying to me that I have been deputed to convey to you this cordial assurance of regret and esteem on the part of the company you have so faithfully served. I am, dear sir, Very faithfully yours,

THEO. H. DAVIES,
Pres. Honolulu Iron Works Co.

Leprosy in Madeira.

In a work published in Paris last year Dr. Jules Goldschmidt records his observations and experience during twenty-six years' professional labor among the lepers of the island of Madeira. The first colonists were criminals and the lowest of the people. Some of the original settlers were later found to be affected with leprosy, and the disease has never been exterminated. The lazaretto, built about 1450, is still used, but the records do not go farther back than 1830. There has been a great falling off of the number admitted annually, due to the cessation of coercion. The entire number of cases in the island at the present time is estimated at seventy, or six to every 10,000 inhabitants. The spread of leprosy depends greatly on locality. Although the island is comparatively small in area, it is not equally infected. Funchal, the capital, gives 164 cases per 1000, while Ponta da Sol the proportion is more than double.

Every Tenth Sale is Free.

At the closing out sale that begins on Monday, March 2, at the Temple of Fashion, Mr. Silva will give away every 10th sale regardless of the amount, that is, every tenth purchaser will get their goods for nothing. If you are fortunate enough to be the tenth person, you can get something for nothing. As soon as the 10th sale is registered, Mr. Silva will ring a bell and the next purchase will be No. 1, and so on up to 10 again. If 500 people buy goods 50 will get their bill of goods (no matter the amount) for nothing. This offer holds good for Monday only.

IN THE HIGHER COURTS.

**THE CONTENTED ELECTION CASE
BEFORE THE SUPREME COURT.**

The Re-Counting of the Ballots Completed—Notes of Probate, Divorce and Other Matters.

The hearing of the demurrer in the case of Rudolph Spreckels vs. Panahan Plantation Company comes up before Judge Carter on Tuesday.

Judge Perry will take up matters connected with the estate of Isaac and H. Robinson on Monday.

The hearing of the final accounts and petition for discharge of administrator in the estate of Ann Maria Diamond is set for Monday, March 9th.

The next regular session of the Supreme Court commence on Monday, March 16th.

Chief Clerk Henry Smith is proud of a new typewriter desk which he has had made to order by P. A. Andersen. By an ingenious arrangement of springs the typewriter is always kept in a vertical position. When closed it makes a handsome writing desk. Six kinds of native wood were used in its construction.

Judge Perry was engaged in hearing the re argument on the question of estoppel in the case of Booth vs. Kapankela this morning.

Jury men were being paid off in the Clerk's office today. In the case of John Emmeluth vs. John Cook, S. M. Ballou, has filed a motion for a new trial.

In the contested election case, argument was being had before the Supreme Court on the regularity of the ballots cast, all of which were before the Court. The argument was divided into sections, one relating to the particular style and shape of the cross made on the ballot, another to the exact position of the crosses whether in or out of the particular space required by law, another to signs and symbols used in place of or in addition to the cross, and so forth. The argument of L. A. Thurston for Mr. Holstein and S. M. Ballou for Mr. Young was concluded a little before noon, when the Chief Justice announced that the case would be taken under advisement.

WIRTH'S CIRCUS.

EDITOR BULLETIN: The mean contemptible article that appeared in the Star of yesterday evening, is on a piece with what is expected of that scrub journal. On the 27th inst. the luminary advocates a heavy tax on "shows" like the above, because they draw very heavily from the natives. This is the first occasion the Star has shown any concern for aborigines.

Let us come to last night's virulent article, who told the vulgar fable that Mr. Wirth, (called by the scrubber "Arny") had made \$12,000? Are the books of Wirth's circus open to the shenny auditor general who misaudits the books of the luminary of the sixth magnitude?

So far from Wirth and his artists being grabbers, they have proved most generous. What of the Grand Army of the Republic? Its benefit netted \$1180. While the benefit for the Lepers brought about \$300. Next week the Maternity Home and the Y. H. I. will have a joint benefit, the profits to be equally divided. Where does the selfishness come in.

Mr. Wirth has paid this precious paper about \$40 per week for ads, and now he is getting repaid in locals of a despicable character. No doubt Wirth is getting weary of the tax, and refuses to be as-

sedged any longer by this bogus tax office.

As for today's performance, who advertised chariots and American Indians? The writer of the article in the Star must have been indulging in fire water, and his brains must have been soaked with anesthetics.

We were not aware that the Twinkler bossed the Hawaiian band or the color of its instruments.

The writers of this are confident of a splendid exhibition today, and will mark their satisfaction of it by dismissing the Star's subscription from their list of expenditures.

A more vulgar, ungenerous, untruthful and uncalled for article never came from even that alleged journal.

MANY SUBSCRIBERS.

THE "STAR" LOSES BUSINESS.

Insults Mr. Wirth and Patronage is Withdrawn.

There appeared in yesterday's Star a tirade against the Circus, the cause of which was the withdrawal of the circus advertisement. Ever since the Wirth combination arrived in this country, the Star has had nothing but praise to offer, until the circus managers saw fit to stop pouring golden coin into the Star sack, when the case became different. Mr. Cameron, Mr. Wirth's manager, is a liberal advertiser and the Star has heretofore had an equal amount with the other papers, besides receiving orders for the majority of the posters, dodgers and other job printing that a combination of this kind needs, after which the Star publishes an item about Mr. Wirth that is unkind, unjournalistic and entirely uncalled for. Naturally Mr. Wirth decides not to give them any more business. The Star people attempted to square themselves, failing in which they publish a contemptible article in which they endeavor to keep the public away from the Carnival that takes place this afternoon at the ball park. In this they will undoubtedly fail.

Mr. Cameron has secured the services of several natives, who are as good horsemen as any cow punchers on the plains of America. Roman Chariot races he does not advertise, but there will be hippodrome races of different kinds and Wilfred Burns (who is an old partner of Prof. Price) will make the balloon ascension and parachute leap. The Star's abuse will go for naught, as everybody who has read the article is crying "Sour Grapes."

Lantern Lecture.

The slides to be shown at Y. M. C. A. hall this evening, illustrating Mr. Birnie's lecture, were made by one of the best photographers in the United States, the man who was employed by Stoddard to take views for his famous lectures. Pictures will be thrown on the screen of the famous sites north of Jerusalem as far as Babel-bek, Shiloh, Jacob's well, Ger-zim, Jezreel, Capernaum, Sea of Galilee, Tiberias, Caesarea, Philippi, Damascus and many other places will be shown. Mr. Birnie saw the pictures taken and his lecture will give personal experiences and impressions.

The Club Stables Sale.

Auctioneer Morgan sold the Club Stables property at noon today to Gus Schumann for \$6,300. The upset price fixed by the Court was \$4750. The debts are about \$10,000.

The revival services conducted by Messrs. Romig and Harrell last night were well attended and specially interesting. The address upon the "Wise Lepers" and the likeness of their condition to that of the sinner was portrayed with telling power, the speaker urging the unconverted to awake and save themselves from the contagion of sin and its awful consequences to body and soul. Prof. Harrell's solo was a sermon in itself.

GOING TO CANTON.

Father Conrardy Will Depart for a Fresh Scene of Labor.

By a recent mail Father Conrardy, for eight years resident priest at the Molokai Leper Settlement, received letters from a friend in Hongkong containing accounts of the deplorable condition of the lepers in Canton. From these it would appear there are large numbers of lepers in that great city, or more correctly outside of it, for they are not allowed to live within its walls but are driven outside every night. These lepers are veritable outcasts, and exist only on charity and the few cash they can pick up by doing the most menial and loathsome of occupations. They have no one to look after them, no hospitals, no doctors, no medicines or place to live, and spend their existence in wandering about looking for refuse morsels of food and clothing.

The Board of Health having finally and peremptorily refused Father Conrardy's services at the Molokai settlement in any capacity whatever, he has resolved to go to Canton and do what he can for the lepers there. He will go to Japan on the Chiyoda maru if he can make suitable arrangements and stay there long enough to investigate the reported discovery of a cure for leprosy by a Japanese physician, and from thence he will go to Hongkong and Canton.

THE SMOKING CONCERT.

Hon. Joseph Marsden Will Preside This Evening.

Arrangements have been fully perfected for the smoking concert to be given under the auspices of the Honolulu Cricket Club this evening at the hall of the Scottish Thistle Club.

Hon. Joseph Marsden has been selected to preside during the evening and his past record in that capacity is sufficient guarantee that he is the right man in the right place.

The Shipment of Sugar.

The bag has displaced both the hoghead and the barrel in the shipment of refined and raw sugars. There was a time, not so very long ago, when such a thing as shipping sugar in anything but a staved vessel was unheard of, but now it is just the other way. The bag has become popular because it is cheaper, while the wooden receptacles advance in price at about the same ratio. Even molasses has gone back on the stove, and that sticky commodity is being carried in bulk.—Philadelphia Record.

A Good Thing.

Now, don't you make a mistake by imagining that some beers are just as good as "Reinier" or "Olympic." Remember that the Seattle Brewing and Malting Co. have made it a study of how to brew only the purest and healthiest beer. Others may try to imitate, but can they? Perhaps, by relying on their imagination. If that's the case, an artist ought never be out of cash. He could draw money anytime he wanted to.

But—

To put it briefly, you had better let some one else do the imagining; and to it that you get the best and purest and in that way your health will not be apt to suffer.
